

SOPHIA PALEOTHEODOROS

BIOGRAPHY

Sophia Paleotheodoros style is defined by her stunning and unique artwork that adds dimension to any environment or space. Abstract art uses a visual language of shape, form, colour and line to create a composition. Artistic creativity burst forth in every piece adorned with the Sophia Paleotheodoros signature.

My style as an abstract artist has taken years to develop.

I think it developed when I inaugurated a successful "faux fini" company, Sophia Décor, which specialized in textured wall finishes, wall applications and murals. My inspiration lies in such artists as Pierre-Paul Rubins for his dark, deep colours and Henri de Toulouse-Lautrec's wild burlesque offerings.

Pure Expressionism. I also get very inspired by my clients. They all have unique ideas of what they would like to see and often when I deliver a commissioned piece, just the look on their face filled with joy is enough inspiration for me.

Versatility is an incredibly important asset as an artist.
